

**Please  
Help Us  
Observe  
Telephone  
Quiet Time:  
10pm-6am**

**Telephone calls and conversations can be disruptive during the overnight hours, preventing patients from getting the rest they need.**

To ensure a quiet late night atmosphere in our hospital, incoming phone calls cannot be placed to patient rooms between 10 pm and 6 am. Patients can place outgoing calls from their rooms if desired. Should you need to reach a patient during those hours, please call the hospital switchboard at the number shown below to be connected. Thank you for your cooperation in putting patients first by observing our Telephone Quiet Time hours.
